

SOL4.3

Day 1

Label the types of circuits:

A. _____

B. _____

SOL4.3

Day 2

Write the name of the contributor:

Invented the incandescent light bulb: _____

Ben Franklin

Helped define electromagnetism: _____

Thomas Edison

Showed lightning was static electricity: _____

Michael Faraday

SOL4.3

Day 3

List examples of materials that can be insulators:

1. _____

2. _____

3. _____

List examples of materials that can be conductors:

1. _____

2. _____

3. _____

SOL4.3

Day 4

A _____ cannot be turned off and on.

electromagnet

_____ is the area of the magnet's force.

permanent magnet

This type of magnet can be turned off and on:

magnetic field

SOL5.1

Day 5

Circle the unit of measurements that can be used for volume:

kilometer

centiliter

gram

liter

ounce

meter

inch

milliliter

kilogram
